

Alesco Flexible Learning Request Policy

Scope

This policy relates to all heads of senior campuses and senior students across all Alesco Secondary College campuses.

Purpose

The purpose of this policy is to ensure that senior students identified as being prepared and having the capacity to study a subject outside the scope of their home campus independently, are adequately supported and accommodated

Definitions

Flexible Learning Plan (FLP): is the agreed plan developed to address how senior students will be monitored and supported when attending courses at other campuses outside of their home campus.

Policy

Alesco Secondary College will ensure that senior students are aware of the intricacies of studying a course not offered by their home campus and whether or not their campus has the capacity to adequately support them.

Alesco will always ensure that anyone considering an individualised study pattern of this nature is given the correct information so that an informed choice can be made.
